CERTIFICATE OF PARTICIPATION

To Whom it may concern

This is to certify that Mr.Akshay.S S, Third Year BTech ECE student from SRM Institute of Science and Technology, Chennai, Tamilnadu, India has successfully completed his community project from 2 June 2025 to 4 July 2025 on the 'Human Milk Bank' project at District Head Quarters Hospital, Erode.

Over these 30 days, he was a part of the team, understood the procedures involved in collecting, storing, and distributing breastmilk. He excelled in skills like obtaining informed consent and associated collection procedures. He was able to reciprocate the SOP related to storage and pasteurization of the milk. He was educated on the need for breastmilk in premature babies in NICU and the chain of command that entails it.

During the course, he interacted with the administrative staff and other team members, discussed their roles in the team, which was well appreciated. He displayed conscientious approach to his responsibilities and demonstrated respect for his role in the team. He is a person of good conduct and resonates qualities of working as a team. Akshay is self-motivated and a smart worker who showed his commitment to learning and adherence to protocols and guidelines. He has familiarized himself with the current standards and was able to reciprocate it into practice.

We are pleased to affirm that Akshay has successfully completed the Community project with the required skills and have confidence that his acquired skills and his potential to contribute to further research endeavors.
